COVID-19 | Measures Implemented in Portugal

[Update: July 1st]

As of July 1, 2022, it is no longer mandatory for passengers who enter national territory to present proof of carrying out a SARS-CoV-2 infection screening test with a result or presentation of a COVID or Portugal digital certificate or it may be authorized by a third party, or certificate for certificate.

It was taken into account that the epidemiological situation experienced in Portugal in the COVID-19 disease pandemic remained relatively stable, as a result of the greater increase in the vaccine, the emergence of new medicines for a serious disease and greater knowledge. about the infection. Also in the international context, namely in the European Union, the evolution of the epidemiological situation no longer justifies the adoption of exceptional measures in terms of air traffic, airports and maritime and river borders.

The measures in force may be revised depending on the evolution of the epidemiological situation.

Important note: Before travelling, it is important to confirm the entry formalities with the airline and the Foreigners and Borders Service (www.sef.pt /sef@sef.pt), the entity responsible for border control.

GENERAL RULES (Mainland Portugal)
- Mandatory mask in:
  - public transport, taxis and TVDE;
  - access and visits to homes and health units.

- General behavioral guidelines:
  - Social distancing
  - Frequent hand washing
  - Respiratory label

USEFUL INFORMATION

Clean & Safe
In tourism, the "Clean & Safe" seal was implemented, which allows greater security and confidence in the use of accommodation establishments, in the various services and tourist attractions.
